

Ali Mostafa Mohamed

Generative AI Engineer | Machine Learning Engineer | Data Scientist

✉ alimu7420@gmail.com ☎ +20 1016182803 📍 Cairo, Egypt 🔗 LinkedIn

PROFESSIONAL SUMMARY

Generative AI Engineer and Machine Learning Engineer with hands-on experience building AI-powered applications, intelligent automation workflows, and scalable ML solutions. Skilled in developing AI agents, RAG systems and recruitment automation pipelines using Python, LLM APIs, and workflow automation tools like n8n. Experienced in machine learning, data processing, API integration, web scraping, and deploying AI-driven systems that improve efficiency and decision-making. Passionate about creating practical AI products and continuously exploring modern AI technologies and automation frameworks.

EXPERIENCE

- Machine Learning Intern, AMIT**2025 – 2025
 - Applied Machine Learning techniques on real datasets.
 - Cleaned, analyzed, and preprocessed data using Python & Pandas.
 - Built simple predictive models and data visualizations.
- AI Automation Intern / Junior AI Automation Engineer, Evunity**2025 – 2025
 - Developed automation solutions to streamline repetitive tasks and improve efficiency.
 - Implemented a RAG (Retrieval-Augmented Generation) system for ABA, enabling intelligent data-driven responses.
 - Built AI-powered workflows integrating APIs and automation tools to optimize business processes.

EDUCATION

- Bachelor of Computer Engineering,**2027

Modern Academy for Engineering and Technology

 - Expected Graduation: 2027

TECHNICAL SKILLS

- Programming**
Python, SQL
- Data Analysis & Visualization**
Pandas, NumPy, Matplotlib, Seaborn, Power BI
- AI & Machine Learning**
Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Agents, Semantic Search, Text Generation, Image Generation, Open-Source LLMs, Machine Learning Models, AI Automation
- Tools & Platforms**
Jupyter Notebook, Google Colab, Git & GitHub, n8n
- Frameworks & AI Tools**
LangChain, LangGraph, LangSmith, Hugging Face, Ollama, Scikit-learn

LANGUAGES

Arabic

Native

English

Proficient

TECHNICAL PROJECTS

AI Resume Optimizer, *Personal Project*

- Developed a full-stack AI-powered recruitment platform to enhance resumes and career preparation.
- Built intelligent tools including ATS Resume Analyzer, Smart Resume Builder, Cover Letter Generator, Interview Preparation, and Career Advice Assistant.
- Implemented modular AI services for resume analysis, skill extraction, and job description matching.
- Improved user experience through optimized workflows and interactive UI component

Weather Prediction App, *Python, Streamlit, Machine Learning*

- Developed a web app that predicts rain for tomorrow and next day temperature using historical weather data and machine learning models.
- Integrated Open WeatherMap API to fetch real-time weather data for any city.
- Implemented RandomForestClassifier for rain prediction and RandomForestRegressor for temperature forecasting.
- Created interactive dashboards with Plotly to visualize temperature trends, humidity, pressure, and rain distribution.
- Deployed the app with Streamlit, enabling user-friendly input for city selection and dynamic weather insights.

CERTIFICATIONS:

- Data Analysis in Python Data Camp
- Associate Data Scientist in Python Data Camp
- SQL Bootcamp: MySQL for Beginner to Advanced - Udemy
- Machine Learning Course
Personal Learning

ACHIEVEMENTS / HIGHLIGHTS:

Project Outcomes

- Predicted next-day temperature with high accuracy using historical data.
- Interactive 7-day temperature forecast visualization.
- User-friendly interface with real-time API data integration.

SOFT SKILLS

Core Competencies

- Problem Solving
- Time Management
- Fast Learning
- Team Collaboration
- Technical Writing
